

2011 Training Seminars

Master the relationship between boiler efficiencies and system performance to keep your systems operating at their peak...

By attending our **free†** Boiler Efficiency Application seminar, you'll not only learn how to maximize the efficiency of any boiler application but you'll earn up to 16 hours of continuing education* while doing so.

* Continuing Education hours acceptance contingent upon your local jurisdiction.

Mestek Institute – Seminar Instructors

Bob Polizzi, Instructor
VP of Business Development for California Hydronics Corporation. Bob has over 28 years experience in hydronic heating, cooling, plumbing and steam applications and is a long standing member and guest speaker of ASHRAE and ASPE. Bob also serves as a guest instructor at several higher learner institutions.

Tom Neill, Instructor
With more than 36 years of experience in various forms of hydronic heating, Tom specializes in the training, sales and technical support for cast-iron boilers.

Sabino Piccirilli, Instructor
Sabino has more than 31 years of experience in the heating industry, including mechanical sales and service, installation and application engineering.

Bob Witt, Instructor
Bob has been working in the HVAC industry for more than 40 years, specializing in the design and application of copper boilers and water heaters.

George Carney, Instructor
George has spent more than 27 years working on all aspects of hydronic heating, and has a unique understanding of the design and application of both cast-iron and oil-burning boilers.

Register online today!

Maximize your time, energy, and understanding of high-efficiency boiler systems. For additional information and to register online:

Agenda Boiler Efficiency Application

Day One (8:00 am – 5:00 pm)

Introducing Mestek: Experience Based Innovation
Boilers & Water Heaters: Theory, Features and Design
Energy vs Efficiency
HeatNet Integrated Controls with Hands-On Tutorial
Lunch
Venting and Combustion
Water Flow/Quality
Group Dinner

Day Two (8:00 am – 5:00 pm)

Piping Systems
Air Separation
Expansion Tanks
PRV/Fill Valves
Centrifugal Pumps
Installation & Application
Control Valves
Balance Valves
Group Dinner

Day Three (8:00 am – 12:00 pm)

Overview : Mestek Distributor Products Group
Factory Tour
Departure

† **Note:** Includes seminar tuition plus arranged room and board; does not include transportation. Call Janine Pedro at 413-564-5779 for additional information.

Tap into a combined 140+ years of HVAC experience—join the Mestek Institute for a free† three-day seminar on proper boiler system design and operation. Get the tools you need to ensure higher efficiency and lower operational costs:

◆ How simply selecting a high-efficiency boiler may not equate to performance improvement

◆ What effect the boiler system has on the boiler itself, and how to maximize all-around performance

◆ How maintaining system and boiler operational efficiency prevents premature failures

◆ PLUS: earn up to 16 CE* hours towards continuing education requirements during our product neutral application training

*An invitation to tune up
your bid & spec business
and boiler system efficiency
as you earn CE* hours*
